

# WE HAVE HOUSING

## SUNSHINE HOME SHARE COLORADO

We currently have 14 Home Providers looking to share their homes.

Our current average rent price is \$600/month with minimal service exchange.

We are actively seeking Home Seekers looking for an affordable housing option.

**Sunshine Home Share Colorado** is a community-driven nonprofit that connects seniors with empty space in their homes with someone needing affordable housing. Our senior home providers are losing their ability to remain in their homes due to rising costs of their homes and the high costs of in home support, and senior home seekers are forced into homelessness with rising rental costs and drastic affordable housing shortages. Using existing housing stock to support aging in place and create affordable housing just makes sense. Matches are made based on compatibility, supportive service exchange needs, and the comprehensive social work model is designed to support safety in the matching process.
